The Business Problem

No Centralized Model

Inconsistent reporting across markets & divisions

Scale Challenge

Traditional tools can't handle large datasets

Strategic Gap

Management lacked reliable insights for planning

Project Objectives

1

Data Preparation

Clean, transform & standardize raw sales data

2

Data Modeling

Build Star Schema with dimensional relationships

3

Business Reporting

Customer, market, division & product reports

4

Business Insights

Discover revenue drivers & growth opportunities

Dataset at a Glance

799K

Sales Records

fact_sales_monthly

189

Customers

dim_customer

298

Products

dim_product

23

Markets

dim_market

1,066

Date Rows

dim_date (Power Query)

Star Schema architecture — one fact table connected to four dimension tables

Technology Stack

- Power Query
ETL operations & data transformation
- Power Pivot
Data modeling & relationships
- DAX
Custom calculations & KPI measures
- Pivot Tables
Data aggregation & reporting

ETL Process

A repeatable ETL workflow ensures data quality and consistency across all analytical reports.

Data Modeling: Star Schema

Fact Table

fact_sales_monthly — 799,962 transactions

Dimensions

Customer · Product · Market · Date

Benefits

Improved performance, scalability & maintainability

Key Reports & Findings

Customer

Top Markets 2021

- **India** — \$161.3M (strongest market)
- **USA** — \$87.8M
- **South Korea** — \$49.0M

Division Leaders

- **P & A** — \$338.4M (largest revenue)
- **PC** — \$165.8M (highest growth rate)

Key Business Insights

Revenue Expansion

Substantial growth between
2020–2021

Market Leadership

India emerged as the most
valuable market

Customer Concentration

Key customers drive
significant revenue share

Product Growth

AQ Mx NB, AQ Smash 2 & AQ
LION series show exponential
YoY growth

Recommendations & Outcomes

Market Strategy

Increase investment in India & USA

Customer Strategy

Strengthen partnerships with Amazon & AtliQ Exclusive

Product Strategy

Expand high-growth product lines

Operational Strategy

Use analytical reporting for ongoing performance monitoring

- ✔ Processed **~800K records** · Built complete ETL + Star Schema · Delivered 5 analytical reports using Excel BI
